

Letter to Congressional Leaders Transmitting a Statement Showing
Apportionment Population for Each State
January 4, 2001

Dear Mr. Speaker: (Dear Mr. President:)

Pursuant to title 2, United States Code, section 2a(a), I am transmitting the statement showing the apportionment population for each State as of April 1, 2000, and the number of Representatives to which each State would be entitled.

Sincerely,

WILLIAM J. CLINTON

NOTE: Identical letters were sent to J. Dennis Hastert, Speaker of the House of Representatives, and Albert Gore, Jr., President of the Senate.

Remarks on Action To Preserve America's Forests
January 5, 2001

Thank you very much. You guys are all cheating. You're just trying to warm up. I know what's going on. *[Laughter]* I was told by an elderly conservationist from my home State of Arkansas that I had better do a good job with America's natural resources when I became President, on pain of feeling the fire of Hades. I did not realize that our reward is that we would be freezing to death here. *[Laughter]*

I want to thank my good friend Senator Gaylord Nelson for a lifetime of leadership in conservation. And I am profoundly grateful to Secretary Glickman and to Chief Dombeck, a career public servant, who said it all when he began by saying, "This is not a political issue for those of us who believe in it."

I thank Jim Lyons and the others at the Department of Agriculture and the Forest Service. I want to thank our EPA Administrator, Carol Browner, who's here with us today. Just a few days ago, she announced her new rule to cut harmful emissions caused by the burning of diesel fuel. It will dramatically improve the quality of air in America, and we thank her for that.

I would like to also acknowledge the substantial contributions to this effort, particularly in fading the heat—and believe it or not, even today there was some heat involved in this. I want to thank John Podesta and George Frampton and the others at the White House for their strong support for the course we have followed.

And I'd like to thank Dr. Tom Elias for hosting us again and for showing me my bonsai

tree when I came up. *[Laughter]* We came here 2 years ago to launch the lands legacy initiative, and I knew this was the place to plant the seeds of success. And I thank him. That is also another major achievement of this Congress this year, the largest increase in funding for land conservation in the history of the Republic, and I thank all those who were involved in that.

Finally, I would like to thank Congressman Mark Udall for being here with his bride, Maggie. Thank you very much for being here. As you know, he comes from a family with fairly substantial environmental credentials, and he came here, and the first thing he said was that we had done the right thing today. And we will need his voice in Congress this year, and we thank him for being here.

For the first time ever, with the lands legacy initiative, we established a dedicated continuous fund for protecting and restoring green and open spaces across America. Today we come to build on that record.

In one way or another, all of us have come here, and I now have come to know many of you in this audience. And I know we come from different backgrounds and have traveled different paths through life, but somehow or another, we have in common our view that nature is a priceless but fragile gift, an important part of the fabric of our lives, and a major part of our responsibility to our children and our children's children.

I grew up in a State where more than half the land is covered by forest. I grew up in
